

NRECA is again an Official Supporter of EPRI Electrification Conference

NRECA is proud to be an official Supporting Organization of the [Electrification 2020 International Conference & Exposition](#), being hosted by the Electric Power Research Institute (EPRI) on April 6-9, 2020 in Charlotte, North Carolina. This event will bring together stakeholders across industry sectors for vital conversations on accelerating the use of electrification technologies – from transportation, to industrial processes, to smart home applications and many more.

Sponsored by leading utilities and industry players, the *Electrification 2020 International Conference & Exposition* will build on the energy of the inaugural conference in 2018 by addressing the very latest questions on end-use electrification and exploring the answers to help advance organizations' initiatives.

Electrification 2020 will offer you the opportunity to:

- Develop partnerships by connecting and sharing ideas with leaders from multiple industry segments.
- Participate in agenda sessions featuring compelling content on all aspects of end-use electrification.
- Explore a diverse Exhibit Hall showcasing a wide array of electrification programs, products, and services.
- Enjoy multiple evening networking functions, including the Closing Party at the NASCAR Hall of Fame.

For full conference details, including exhibiting and sponsorship opportunities, visit www.electrification2020.com. We encourage you to [register](#) at the Early Bird rate, available only through September 30. **Note: To receive continuing updates on this event, join the [Mailing List](#).**
