

Between April and August 2015—before the Residential Solar Energy Rate was established—more than 170 Members throughout CoServ’s service territory expressed an interest in purchasing blocks of electricity generated by the CoServ Solar Station.

### CoServ Solar Station Inquiries

-  CoServ Headquarters
-  CoServ Solar Station
-  Solar Inquiries

The Residential Solar Energy Rate went live in September 2015. CoServ Members can purchase blocks of solar energy (outlined below) without paying upfront costs or entering into long-term leases. There are no contracts or maintenance issues to worry about, and Members can terminate involvement without incurring a fee.

Solar Block	Block Charge
200 kWh	\$25.00
400 kWh	\$50.00
600 kWh	\$75.00
800 kWh	\$100.00
