Category _____

Co-op's Classification *(if applicable in this category)* _____

Entry Title _____

What made a winning entry in this category this year? _____

SCORING

This section gives the average and winning scores from the classification that your co-op belongs to for this category. Gold winners must score at least 90 points and Silver winners at least 80 to qualify, although the top two scores will be declared the Gold and Silver winners. Sections are weighted differently in each category. (Score sheets with the scoring may be viewed on cooperative.com.) Each entry is judged on its own merits and not in comparison to other entries. If no entry scores an 80 or above score, the Council of Rural Electric Communicators' Awards and Recognition Committee and NRECA reserve the right to determine that no award will be given.
